The signatures of both the property owner and the contractor/agent are required. Both understand as shown by their signatures, that the excavation, materials and labor undertaken by this permit shall be executed to at least the minimum standard set forth by the Hiawatha Municipal Code. Satisfaction or acceptance of completion will be as determined by the Inspecting Officer of the City of Hiawatha and will be certified by signature. Following approval and signature of the Inspecting Officer, the owner and contractor/agent are responsible for the work performed, including subgrade, surface, materials and labor, for a minimum period of 12 months after inspection and acceptance. The contractor shall make or cause to be made all repairs or replacements made necessary by settlement within 30 days after notice by the City of Hiawatha.
