

## CHAPTER XV. UTILITIES

- Article 1. General Provisions
- Article 2. Water
- Article 3. Sewers
- Article 4. Solid Waste
- Article 5. Water Conservation

---

### ARTICLE 1. GENERAL PROVISIONS

- 15-101. DEFINITION. For purposes of this article utility services shall include water, electrical, sewer, solid waste (refuse) and other utility services provided by the city. (Code 2007)
- 15-102. DELINQUENT ACCOUNTS. Unless otherwise provided, water, electric, sewer, solid waste (refuse) or other utility service shall be terminated for nonpayment of service fees or charges in accordance with sections 15-103:104. (Code 2007)
- 15-103. NOTICE; HEARING. (a) If a utility bill has not been paid on or before the due date as provided in this chapter, a delinquency and termination notice shall be issued by the city clerk within five days after the delinquency occurs and mailed to the customer at his or her last known address. A copy also shall be mailed to the occupant of the premises if the occupant and the customer are not the same person.
- (b) The notice shall state:
    - (1) The amount due, plus delinquency charge;
    - (2) Notice that service will be terminated if the amount due is not paid within 10 days from the date of the notice unless the date on the notice to pay the charges due shall be on a Saturday, Sunday or legal holiday, in which event such notice will give the consumer until 1:00 p.m. the next business day in which to pay the charges;
    - (3) Notice that the customer has the right to a hearing before the designated hearing officer;
    - (4) Notice that the request for a hearing must be in writing and filed with the city clerk no later than three days prior to the date for termination of service.
  - (c) Upon receipt of a request for hearing, the city clerk shall advise the customer of the date, time and place of the hearing which shall be held within three working days following receipt of the request. (Code 2007)
- 15-104. SAME; FINDING. Following the hearing, if the hearing officer shall find that service should not be terminated, then notice of such finding shall be presented to the city clerk. If the officer finds that service should be terminated, an order shall be issued terminating service five days after the date of the order. The customer shall be notified either in person or by mailing a letter to his or her last known address by certified mail, return receipt requested. However, if the order is made

at the hearing in the presence of the customer, then no further notice need be given. The hearing officer has a right, for good cause, to grant an extension, not to exceed 10 days, for the termination of such service. (Code 2007)

15-105. UTILITY DEPOSIT. (a) At the time of making application for utility service, the property owner or customer shall make a cash deposit in the amount set by the governing body to secure payment of accrued bills or bills due on discontinuance of service. Receipt thereof shall be issued to each such depositor.

(b) Cash deposits for the indicated utility services shall be in the following amounts:

(1) Water and Sewer Service - \$75.00.

(c) The deposit so made shall be kept by the city clerk in a separate account and deposited in a fund designated as the "meter deposit fund." Interest shall be payable at the rate determined by the state corporation commission yearly and credited to the customer's account January 1st of each calendar year.

(e) Upon the discontinuance of any service at the request of the depositor, the deposit shall be refunded, with the accrued interest thereon less any amount due and owing the city for services furnished prior thereto or it may be credited towards the payment of the final bill rendered to the customer.

(f) Any security deposit not refunded within three years after discontinuance of service shall be deposited in the utility fund of the city upon compliance with the provisions of K.S.A. 12-822 as amended.

(Code 2007)

15-106. PETTY CASH FUND. A petty cash fund in the amount of \$1,000.00 is established for the use of the city utilities department, for the purpose of paying postage, freight, temporary labor, and other emergency expenses, including refund of deposits made to secure payment of accounts. (Code 2007)

15-107. SAME; DEPOSITS. The petty cash fund shall be deposited in the regular depository bank of the city and paid out on the order of the city clerk by check which shall state clearly the purpose for which issued. (Code 2007)

15-108. SAME; VOUCHERS. Whenever the petty cash fund becomes low or depleted, the city clerk shall prepare vouchers covering expenses as have been paid from the petty cash fund and shall submit such vouchers together with the paid checks to the governing body for review and allowance of the amounts from the regular funds of the utilities. Warrants issued therefor shall be payable to the petty cash fund and shall be deposited therein to restore said petty cash fund to its original amount. (Code 2007)

15-109. UTILITY BILLING CLERK'S DUTIES. (a) Make out and be responsible for the collection of all water bills due the city for water service supplied to any consumer or customer.

(b) Keep proper records of the account of each customer, including the monthly charges of water rents, the state retailer's sales tax, deposits to secure payment of bills, all connection charges, penalties, rebates, and all other financial transactions with each customer.

(c) Keep a regular set of books showing in detailed account all collections, appropriations, expenditures, and claims approved for payment; and shall make all payment of claims after their approval by the governing body.

(d) Have and perform such other duties in connection with the water department as the governing body may prescribe.

(Code 1977, 13.04.040; Code 2007)

15-110.

**BILLING.** (a) The charges set forth in this chapter shall be payable upon billings rendered each month by the utility billing clerk in accordance with the rules and regulations thereof as provided by ordinance.

(b) The utility billing clerk shall bill each consumer of water from the public water system of the city on a monthly basis. The city clerk shall determine the monthly billing based upon the customer's previous water meter reading period. The clerk shall take the previous water period consumption and bill the customer monthly.

(Code 1977,13.08.080; Code 2007)

## ARTICLE 2. WATER

- 15-201. SUPERINTENDENT OF WATER AND SEWAGE. The general management, care, control and supervision of the city water system shall be in the superintendent of water. (Code 2007)
- 15-202. REGULATIONS. The furnishing of water to customers by the city through its waterworks system shall be governed by the regulations set out in this article. (Code 2007)
- 15-203. SERVICE NOT GUARANTEED. The city does not guarantee the delivery of water through any of its mains and connecting services at any time except only when its mains, pumping machinery, power service connection are in good working order, and the supply of water is sufficient for the usual demand of its consumers. (Code 2007)
- 15-204. SERVICE CONNECTIONS REQUIRED. (a) The owner of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purpose, situated within the city abutting on any street, alley, or right-of-way in which there is now located or may in the future be located near public water mains, is hereby required at his or her own expense to make connection to such public water main.
- (b) Before any connection is made to the city's water system an application must be made in writing to the city clerk by the owner of the premises, or his or her authorized representative, for a permit to make such connection.
- (c) Each residence of building shall be considered a separate unit and must have its own individual and separate service from the water mains. Except, that when businesses are closely related to each other are carried on at one location or adjoining locations by a corporation, copartnership, individual, or are managed by one manager, and are supplied water by one meter, such businesses shall be considered as one business and there shall be one minimum charge made. (Code 1977, §§ 13.08.020 and 13.08.030; Code 2007)
- 15-205. APPLICATION FOR SERVICE. (a) Any person, firm or corporation desiring a connection with the municipal water system shall apply in writing to the city clerk, on a form furnished by the city for that purpose, for a permit to make the connection.
- (b) The application shall:
- (1) Contain an exact description including street address of the property to be served;
  - (2) State the size of tap required;
  - (3) State the size and kind of service pipe to be used;
  - (4) State the full name of the owner of the premises to be served;
  - (5) State the purpose for which the water is to be used;
  - (6) State any other pertinent information required by the city clerk;
  - (7) Be signed by the owner or occupant of the premises to be served, or his or her authorized agent.
- (c) Each application for a connection permit shall be accompanied by payment of fees and/or costs specified in section 15-207. (Code 2007)

- 15-206. CITY TO MAKE CONNECTIONS. All taps shall be given, street excavations made, corporation cocks inserted, pipes installed from main to curb, and the curb cock installed in a meter box to which the service pipe is to be connected by city employees only. (Code 2007)
- \*\*\*15-207. CONNECTION FEES. The fees for connection to the city waterworks system shall be as follows:
- (a) For connecting water main with three-fourths inch tap, three-fourths inch service line and installing three-fourths inch meter - \$\_\_\_\_\_ inside city limits, and \$\_\_\_\_\_ outside the city limits;
  - (b) For connecting water main with one inch tap, one inch service line and installing one inch meter - \$\_\_\_\_\_ inside city limits, and \$\_\_\_\_\_ outside the city limits;
  - (c) For connecting water main with one and one-half inch tap, one and one-half inch service line and installing one and one-half inch meter - \$\_\_\_\_\_ inside city limits, and \$\_\_\_\_\_ outside the city limits;
  - (d) For connecting water main with two inch tap, two inch service line and installing two inch meter - \$\_\_\_\_\_ inside city limits, and \$\_\_\_\_\_ outside the city limits;
  - (e) All charges hereunder are subject to sales tax.  
(Code 1977, § 13.04.060. F; Code 2007)
- 15-208. CURB COCKS. There shall be a curb cock in every service line attached to the city main, the same to be placed within the meter box. Curb cocks shall be supplied with strong and suitable "T" handles. (Code 2007)
- 15-209. CHECK VALVES. Check valves are required on all connections to steam boilers or on any other connection deemed necessary by the water superintendent. Safety and relief valves shall be placed on all boilers or other steam apparatus connected with the water system where the steam pressure may be raised in excess of 40 pounds per square inch. (Code 2007)
- 15-210. UNAUTHORIZED SERVICE. It shall be unlawful for any person, firm, or corporation, other than duly authorized city officials or employees to turn water on or off at the water meter or curb cock shut off, with a key or in any other manner, without first obtaining written permission from the mayor or the governing body. (Code 2007)
- 15-211. METERS. (a) All water furnished to customers shall be metered.  
(b) Meters shall be located between the sidewalk or property line and curbing when the main is in the street, and on private property within three feet of the alley line when the main is in the alley.  
(c) The city's responsibility stops at the meter.  
(d) All water meters shall remain the property of the city and shall be subject to water department rules and regulations.  
(Code 1977, § 13.04.060. F; Code 2007)
- 15-212. SAME; TESTING. Meters shall be tested before being set and at any other time thereafter when they appear to be measuring incorrectly. (Code 2007)

- 15-213. TAMPERING WITH METER. It shall be unlawful for any person to break the seal of any meter, to alter the register or mechanism of any meter, or to make any outlet or connection in any manner so that water supplied by the city may be used or wasted without being metered. It shall be unlawful for any person except an authorized employee of the water department to turn any curb cock on or off. (Code 2007)
- 15-214. LEAKS PROHIBITED; PENALTY. No allowances shall be made for water used or lost through leaks, carelessness, neglect or otherwise after the same has pass through the meter. (Code 2007)
- 15-215. DISCONNECTION, RECONNECTION CHARGE. The governing body shall establish, by ordinance, a water service disconnection and reconnection charge. Whenever the city receives a request from a customer for termination of water service the disconnection charge shall be added to the customer's final bill. Any service disconnected for nonpayment of delinquent bill shall be reconnected only upon payment of the delinquent bill, interest penalty thereon, and the reconnection charge. (Code 2007)
- 15-216. UTILITY DEPOSIT. At the time of making application for water service, the property owner or customer shall make a cash deposit in the amount and manner specified in section 15-105 to secure payment of accrued bills or bills due on discontinuance of service. (Code 2007)
- 15-217. INTERRUPT SERVICE. The city reserves the right to interrupt water service for the purpose of making repairs or extensions to water lines or equipment. (Code 2007)
- 15-218. PROHIBITED ACTS. It shall be a violation of this article for any unauthorized person to:
- (a) Perform any work upon the pipes or appurtenances of the city's waterworks system beyond a private property line unless such person is employed by the city;
  - (b) Make any connections with any extension of the supply pipes of any consumer without written permission to do so having been first obtained from the governing body;
  - (c) Remove, handle or otherwise molest or disturb any meter, meter lid, cutoff, or any other appurtenances to the water system of the city.
- (Code 2007)
- 15-219. WASTING WATER. Water users shall prevent unnecessary waste of water and shall keep sprinklers, hydrants, faucets and all apparatus, including the service line leading from the property to the meter in good condition at their expense. (Code 2007)
- 15-220. RIGHT OF ACCESS. Authorized employees of the city may enter upon any premises at reasonable hours for the purpose of reading the meter or servicing or inspecting meters or water lines. (Code 2007)

- 15-221. RATES; SPECIAL RATES. The rates per month for the use of water shall be as follows: (a) Within City Limits. (1) The minimum monthly charge for customers within the corporate limits shall be based upon the size of the meter, as follows:
- (1) Three-quarter inch or less - \$13.78;
  - (2) One inch - \$34.41;
  - (3) One and one-half inch - \$68.88;
  - (4) Two inch - \$110.20;
  - (5) Three inch - \$220.41;
  - (6) Four inch - \$344.25; and,
  - (7) Six inch - \$688.51.
- (b) The monthly charge for all water usage in excess of the minimum for customers within the corporate limits shall be computed as follows:
- (1) 201 - 1000 cubic feet - \$2.21 per 100 cubic feet;
  - (2) 1,001 - 2,500 cubic feet - \$2.00 per 100 cubic feet;
  - (3) 2,501 - 10,000 cubic feet - \$1.79 per 100 cubic feet;
  - (4) Over 10,000 cubic feet - \$1.58 per 100 cubic feet.
- (c) Outside City Limits. (1) The minimum monthly charge for customers outside the corporate limits shall be based upon the size of the meter, as follows:
- (1) Three-quarter inch or less - \$20.67;
  - (2) One inch - \$51.62;
  - (3) One and one-half inch - \$103.32;
  - (4) Two inch - \$165.30;
  - (5) Three inch - \$464.18;
  - (6) Four inch - \$516.37; and,
  - (7) Six inch - \$1,032.76.
- (d) The monthly charge for all water usage in excess of the minimum for customers outside the corporate limits shall be computed as follows:
- (1) 201 - 1000 cubic feet - \$3.32 per 100 cubic feet;
  - (2) 1,001 - 2,500 cubic feet - \$3.00 per 100 cubic feet;
  - (3) 2,501 - 10,000 cubic feet - \$2.69 per 100 cubic feet;
  - (4) Over 10,000 cubic feet - \$2.37 per 100 cubic feet.
- (e) The minimum monthly charge per customer shall be as stated in subsections (a) and (c), regardless of whether or not the minimum monthly consumption has occurred.
- (f) Existing Meters. All existing meters will be billed for the minimum at the largest meter size now in service at the meter location of water user and any new meters added will be at the rate stated in this section.
- (g) Special Rates; Un-metered Rates.
- (1) The city reserves the right to contract with any large customer or consumer pertaining to the supply and metering of water.
  - (2) The governing body may authorize the sale of water without metering the same at the rate to be fixed by the gallon, barrel or tank wagon load. In such case, the city clerk shall collect all sums due for the sale of un-metered water and shall account monthly for such sums.
- (Code 1977, §§ 13.08.010 and 13.08.070; Ord 896)

- 15-222. PAYMENT OF BILLS. All water bills for the previous month's water service shall be paid on or before the 10th day of the month following the service. For any

billing not paid when due a late charge of 5% percent will be added to the bill. In the event that the 10th day of the month falls on Saturday, Sunday, any legal holiday or such other day that the city building is not open for business, the penalty will not be assessed until after twelve noon on the first business day following the 10th day of the month. (Code 1977, § 13.04.200; Code 2007)

15-223. DELINQUENT ACCOUNTS; NOTICE; HEARING; FINDING; LIABILITY. Water service shall be terminated for nonpayment of service fees or charges as provided in sections 15-102:104. (Code 2007)

15-224. USE DURING FIRE. No person owning or occupying premises connected to the municipal water system shall use or allow to be used during a fire any water from the water system except for the purpose of extinguishing the fire. Upon the sounding of a fire alarm it shall be the duty of every such person to see that all water services are tightly closed and that no water is used except in extraordinary cases of emergency during the fire. (Code 2007)

15-225. CROSS-CONNECTIONS PROHIBITED. No person shall establish or permit to be established or maintain or permit to be maintained, any cross connection whereby a private, auxiliary, or emergency water supply other than the regular public water supply of the city may enter the supply and distributing system of the city unless specifically approved by the Kansas Department of Health and Environment and the governing body. (Code 2007)

15-226. SAME; PROTECTIVE BACKFLOW DEVICES REQUIRED. Approved devices to protect against backflow or backsiphonage shall be installed at all fixtures and equipment where backflow and/or backsiphonage may occur and where there is a hazard to the potable water supply in that polluted water or other contaminating materials may enter into the public water supply. Any situation in which a heavy withdrawal of water, such as a sudden break in the main or water being used from a fire hydrant, may cause a negative pressure to develop which could lead to backsiphonage of polluted water into the system shall be improper and must be protected by approved backflow preventive valves and systems as determined by the superintendent. (Code 2007)

15-227. SAME; INSPECTION. The city utility superintendent or other designee of the governing body shall have the right of entry into any building or premises in the city as frequently as necessary in his or her judgment in order to ensure that plumbing has been installed in accordance with the laws of the city so as to prevent the possibility of pollution of the water supply of the city. (Code 2007)

15-228. SAME; PROTECTION FROM CONTAMINANTS. Pursuant to the city's constitutional home rule authority and K.S.A. 65-163a, the city by its utility superintendent may refuse to deliver water through pipes and mains to any premises where a condition exists which might lead to the contamination of the public water supply system and it may continue to refuse the delivery of water to the premises until that condition is remedied. In addition, the city utility superintendent may terminate water service to any property where the cross connections or

backsiphonage condition creates, in the judgment of the superintendent, an emergency danger of contamination to the public water supply. (Code 2007)

15-229. FLUORIDATION OF WATER. (a) In order to protect and promote the health of the residents of the city, the fluoridation of the water provided by the municipal water utility is authorized and directed.

(b) The amount and method of fluoridation shall be consistent with all applicable state and federal regulations as well as standards generally recognized and accepted by the medical and dental profession.

(c) Fluoridation of the water provided by the municipal water utility shall commence at the earliest feasible time after the adoption of the ordinance codified in this section.

(Code 1977, 13.04.175)

15-230. TRACER WIRE REQUIRED. An electrically continuous insulated number 12 gauge solid AWG copper tracer wire shall be installed with and attached to all underground non-metallic private water and sewer line piping and shall terminate above grade at the cleanout(s) with sewer lines. When an outside meter box is present, the tracer wire shall terminate inside the water meter box. The termination point of the opposite end shall be attached to an approved electrode such as a copper rod driven in the earth. The number 12 AWG wire shall be attached to the electrode by means of an approved grounding clamp of copper alloy and be UL listed for direct burial. When no wire exists that the public utility line, a copper rod or pipe shall be driven in the earth near the public utility or at the termination point and the number 12 AWG wire attached to the electrode by means of the approved grounding clamp. (Ord. 897; Code 2007)

### ARTICLE 3. SEWERS

15-301. DEFINITIONS. Unless the context clearly indicates otherwise, the meaning of words and terms as used in this article shall be as follows:

(a) Building Drain - shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning five feet outside the innerface of the building wall.

(b) Building Sewer - shall mean the extension from the building drain to the public sewer or other place of disposal.

(c) B.O.D. (denoting Biochemical Oxygen Demand) - shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at 20 degrees centigrade, expressed in parts per million by weight.

(d) PH - shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

(e) Individual Domestic - means any single family residence, commercial business, office, institution, school, church or public entity having an individual direct or indirect connection to the wastewater facilities of the city and on individual city or private water service meter, or connection to any such water service.

(f) Industrial - means any industrial business engaged in the manufacturing or processing of one or more products, and in which wastewaters are produced from such manufacturing or processing and said wastewaters are discharged directly or indirectly to the wastewater facilities of the city.

(g) Multi-domestic - means any multi-family residence, apartment or mobile home and any commercial business, office, institution, school, church or public entity having a direct or indirect connection to the wastewater facilities of the city and not having an individual water service meter but is served with city or private metered water by the owner of the property on which it is located.

(h) City Waste Water Superintendent - shall mean the superintendent of the city or his or her authorized deputy, agent or representative.

(i) Sewage - shall mean a combination of the water-carried wastes from residences, business buildings, institutions and industrial establishments, together with such ground, surface, and storm waters as may be present.

(j) Sewer - shall mean a pipe or conduit for carrying sewage.

(k) Public Sewer - shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.

(l) Combined Sewers - shall mean sewers receiving both surface runoff and sewage, are not permitted.

(m) Sanitary Sewer - shall mean a sewer which carries sewage and to which storm, surface, and groundwaters are not intentionally admitted.

(n) Storm Sewer or Storm Drain - shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and polluted industrial wastes.

(o) Sewage Treatment Plant - shall mean any arrangement of devices and structures used for treating sewage.

(p) Suspended Solids - shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

(q) User - means any person as defined in section 1-102, including an institution, governmental agency or political subdivision producing wastewater requiring processing and treatment to remove pollutants and having premises connected to the wastewater facilities.

(r) Wastewater - means sewage, the combination of liquids and water carried wastes from residences, commercial and industrial buildings, institutions, governmental agencies, together with any ground, surface or storm water that may be present.

(s) Normal wastewater. - The strength of normal wastewater shall be considered within the following ranges:

- (1) A five day biochemical oxygen demand of 300 milligrams per liter or less;
- (2) A suspended solid concentration of 350 milligrams or less;
- (3) Hydrogen ion concentration of 5.0 to 9.0.

(Code 2007)

15-302. **SEWER CONNECTION REQUIRED.** The owner of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purpose, situated within the city and abutting on any street, alley, or right- of-way in which there is now located or may in the future be located a public sanitary sewer of the city, is hereby required at his or her expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this article, within 90 days after date of official notice to do so, provided that said public sewer is within 140 feet of the property line. (Code 2007)

15-303. **PERMIT; CONNECTION FEE.** (a) No person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the city.

(b) There shall be charged a fee of \$250.00 payable at the time of making application for the permit.

(Code 2007)

15-304. **APPLICATION.** Any person desiring to make a connection to the city water system shall apply in writing to the city clerk who shall forward the application to the city waste water superintendent. The application shall contain:

- (a) The legal description of the property to be connected;
- (b) The name and address of the owner or owners of the property;
- (c) The kind of property to be connected (residential, commercial or industrial);
- (d) The point of proposed connection to the city sewer line.

(Code 2007)

15-305. **COSTS.** All costs and expense incident to the installation and connection of the building sewer shall be paid by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer. (Code 2007)

- 15-306. SEWER CONNECTION. The connection of the building sewer into the public sewer shall be made at the "Y" branch if such branch is available at a suitable location. Where no properly located "Y" branch is available, the connection shall be made in the manner approved by the utility superintendent and at a location designated by the city waste water superintendent. (Code 2007)
- 15-307. SEWER FOR EACH BUILDING. A separate and independent building sewer shall be provided for every building except where one building stands at the rear of another on an interior lot and no private sewer is available or can be feasibly constructed to the rear building. In such case, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer. (Code 2007)
- 15-308(1) SAME; SPECIFICATIONS. The building sewer shall be constructed of cast iron pipe, ASTM specifications A74-42, or approved equal; vitrified clay sewer pipe, ASTM specifications C13-44T, or approved equal; or an approved plastic pipe. Any plastic pipe to be installed on any building sewer shall not be approved by the city until the owner has furnished descriptive literature and typical sample section of the plastic pipe proposed for installation, to the city for inspection and review. All joints on all pipe installed shall be tight and waterproof. Any part of the building sewer that is located within 10 feet of a water service pipe or city water main shall be constructed of approved cast iron soil pipe with approved joints. No building sewer shall be installed within three feet of existing gas lines. If installed in filled or unstable ground, the building sewer shall be constructed of cast iron soil pipe, except that non-metallic material may be accepted if laid on a suitable concrete bed or cradle as approved by the city. (Code 2007)
- 15-308(2) SAME. The size and slope of the building sewer to be installed shall be subject to the approval of the city inspector, but in no event shall the diameter of the pipe be less than four inches. The slope at which a six inch pipe is to be laid shall be not less than 1/8 inch per foot and for four inch pipe, not less than 1/4 inch per foot. Any grades for the pipe, which are proposed for installation at grades less than these specified, shall be approved by the city inspector prior to placement. (Code 2007)
- 15-308(3) SAME. Whenever possible the building sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three feet of any bearing wall, which might thereby be weakened. The depth shall be sufficient to afford protection from frost. The building sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with approved curved pipe and fittings, including cleanout fittings. (Code 2007)
- 15-308(4) SAME. At buildings in which the building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer. The use of any pumping equipment for which cross-connections with a public water supply system are needed, is prohibited. The total costs of pumping equipment and pumping equipment operational costs shall be those of the owner. (Code 2007)

- 15-308(5) SAME. No building sewer shall be laid across a cesspool, septic tank or vault until the cesspool, septic tank or vault has been well cleaned and filled with an approved earth or sand fill, then thoroughly tamped and water settled. Cast iron pipe may be used across cesspools or septic tanks, if proper bedding and support for the sewer pipe is acquired. (Code 2007)
- 15-308(6) SAME. All excavation required for the installation of the building sewer shall be open trench work unless otherwise approved by the city. Pipe laying and backfill shall be performed in accordance with ASTM specifications C12-19, except that no backfill shall be placed until the work has been inspected and approved. (Code 2007)
- 15-308(7) SAME. All joints in the building sewers shall be made watertight. If recommended by the city inspector, a water pressure test shall be made on the completed sewer to insure a compliance with this requirement, requiring that the building sewer withstand an internal water pressure of 5 psi., without leakage.
- Cast iron pipe with lead joints shall be firmly packed with oakum or hemp and filled with molten lead, Federal Specifications QQ-L-156, not less than one inch deep. Lead shall be run in one pour and caulked and packed tight. No paint, varnish or other coatings shall be permitted on the jointing material until after the joint has been tested and approved.
- All joints in vitrified clay pipe shall be the polyurethane-compression type joints, approved by the city inspector.
- Joints for all plastic pipe used in building sewers shall be the slip type joints or solvent weld type, approved by the city.
- Joints between any two different type of pipes shall be made with lead, asphaltic jointing materials or concrete, as approved by the city. All joints shall be watertight and constructed to insure minimum root penetration and to the satisfaction of the city. (Code 2007)
- 15-308(8) TRACER WIRE REQUIRED. An electrically continuous insulated number 12 gauge solid AWG copper tracer wire shall be installed with and attached to all underground non-metallic private water and sewer line piping and shall terminate above grade at the cleanout(s) with sewer lines. When an outside meter box is present, the tracer wire shall terminate inside the water meter box. The termination point of the opposite end shall be attached to an approved electrode such as a copper rod driven in the earth. The number 12 AWG wire shall be attached to the electrode by means of an approved grounding clamp of copper alloy and be UL listed for direct burial. When no wire exists that the public utility line, a copper rod or pipe shall be driven in the earth near the public utility or at the termination point and the number 12 AWG wire attached to the electrode by means of the approved grounding clamp. (Ord. 897; Code 2007)
- 15-309. SEWER EXCAVATIONS: DAMAGES. All excavations for buildings sewers shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, curb and gutters, sidewalks, parkways and other public property removed or damaged during the installation of the building sewer, shall be repaired or replaced in a manner acceptable to the city and at the total expense of

the owner. It is further agreed that any parties involved in any excavating or installation work for sewer installations as above set out, will hold the city harmless from any and all damages to persons or property resulting from or growing out of any opening or excavation or any negligent act or from any operation made within the city. (Code 2007)

15-310. FAILURE TO CONNECT. (a) If any person as defined in section 1-102 shall fail to connect any dwelling or building with the sewer system after being noticed, the city may cause such buildings to be connected with the sewer system as authorized by K.S.A. 12-631.

(b) The cost and expense, including inspection fees, shall be assessed against the property. Until such assessments shall have been collected and paid to the city, the cost of making such connection may be paid from the general fund or through the issuance of no fund warrants.  
(Code 2007)

15-311. PRIVY UNLAWFUL. It shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage except as provided in this article. (Code 2007)

15-312. PRIVATE SEWER SYSTEM. (a) Where a public sanitary sewer is not available under the provisions of section 15-302 the building sewer shall be connected to a private sewage disposal system complying with the provisions of sections 15-311 to 15-316.

(b) The owner shall operate and maintain the private wastewater disposal facilities in a sanitary manner at all times, at no expense to the city.

(c) No sewer connection will be permitted for areas outside the city limits until the developer or owner obtains approval from the governing body. Any sewer lines needed to connect with existing city sewer mains and laterals must conform to city and state specifications for same.

(Code 1977, 13.12.050 E, 13.12.060 F; Code 2007)

15-313. SAME; PERMIT. Before commencing construction of a private sewage disposal system, the owner shall first obtain a written permit signed by the utility superintendent. The application shall be accompanied by any plans, specifications or other information deemed necessary by the city waste water superintendent and approved by the governing body. A permit and inspection fee of \$50.00 shall be paid to the city at the time the application is filed. (Code 2007)

15-314. SAME; INSPECTION. The city waste water superintendent or his or her authorized representative shall be allowed to inspect the work at any stage of construction and the applicant shall notify the superintendent when the work is ready for final inspection or before any underground portions are covered. The inspection shall be made within 48 hours of the receipt of notice by the superintendent. (Code 2007)

15-315. SAME; DISCHARGE. (a) The type, capacities, location, and layout of the private sewage disposal system shall comply with all recommendations and requirements of the Water Pollution Control Section of the Kansas State

Department of Health. No permit shall be issued for any private sewage disposal system employing subsurface soil absorption facilities where the area of the lot is less than one acre. No septic tank or cesspool shall be permitted to discharge to any public sewer or natural outlet.

(b) At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in section 15-302, a direct connection shall be made to the public sewer in compliance with this article, and any septic tank, cesspool, and similar private sewage disposal facilities shall be abandoned and filled with suitable and acceptable materials.  
(Code 2007)

15-316. SAME; ADDITIONAL REQUIREMENTS. No statement contained in this article shall be construed to interfere with any additional requirements that may be imposed by the city or county health officer. (Code 2007)

15-317. DISPOSAL OF SEWAGE. It shall be unlawful for any person to deposit or discharge from any source whatsoever any sewage or human excrement upon any public or private grounds within the city, or to permit the contents of any privy, vault or septic tank to be deposited or discharged upon the surface of any grounds. Any unauthorized or unapproved privy vault, septic tank or other means or places for the disposal of sewage, excrement and polluted water may be abated as a public nuisance upon the order of the city or county board of health in accordance with the laws of Kansas. (K.S.A. 12-1617e; 12-1617g; Code 2007)

15-318. DAMAGE TO SEWERS. It shall be unlawful for any unauthorized person to maliciously, willfully, or negligently break, damage, destroy, uncover, deface or tamper with any sewer, structure, appurtenance, or equipment which is part of the municipal sewer system. (Code 2007)

15-319. NATURAL OUTLET. It shall be unlawful to discharge to any natural outlet within the city or in any area under the jurisdiction of the city any sanitary sewage, industrial wastes or other polluted waters except where suitable treatment has been provided in accordance with the provisions of this article. (Code 2007)

15-320. STANDARDS. The size, slope, alignment, materials, excavation, placing of pipe, jointing, testing and backfilling shall all conform to the requirements of the building and plumbing codes or other applicable rules and regulations of the city.  
(Code 2007)

15-321. OLD BUILDING SEWERS. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the city waste water superintendent, to meet all requirements of this article. (Code 2007)

15-322. MUD, GREASE TRAPS. All garages, filling stations, milk plants or other commercial or industrial plants connected to the public sewer shall construct and maintain proper and sufficient interceptors or traps to prevent the discharge of any sand, mud, sediment, litter, waste or any substance harmful to the effective operation and maintenance of the city sewer system, into the building sewer.  
(Code 2007)

- 15-323. ROOF, FOUNDATION DRAINS. (a) It shall be unlawful to connect downspouts from any roof area, drains from any building foundation, paved areas, yards or open courts, or to discharge liquid wastes from any air conditioning unit or cooling device having a capacity in excess of one ton per hour or one horsepower into any city sanitary sewer.
- (b) All discharges prohibited in subsection (a) may be discharged into the public gutter or storm drains or open drainage ditches provided such discharge does not create a nuisance. No such liquids may be discharged into any unpaved street or alley.
- (Code 2007)
- 15-324. SAME; EXCEPTION. Discharges from air conditioning units in excess of one ton per hour or one horsepower may be permitted into a building sewer upon approval of the utility superintendent where there is a finding that such cooling water cannot be recirculated and that such waste water does not overload the capacity of the sewer or interfere with the effective operation of the sewage disposal works of the city. (Code 2007)
- 15-325. PROHIBITED DISCHARGES. No person shall discharge any of the following waters or wastes to any public sewer:
- (a) Liquid or vapor having a temperature higher than 150 degrees Fahrenheit;
- (b) Water or waste which may contain more than 100 parts per million, by weight, of fat, oil or grease;
- (c) Gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid or gas;
- (d) Garbage that has not been properly shredded;
- (e) Ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, paunch manure, or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewage works;
- (f) Waters or wastes having a ph lower than 5.5 or higher than 9.0 or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works;
- (g) Waters or wastes containing a toxic poisonous substance in sufficient quantity to injury or interfere with any sewage treatment process, constitute a hazard to humans or animals, or create any hazard in the receiving waters of the sewage treatment plant;
- (h) Water or wastes containing suspended solids of such character and quantity that unusual attention or expense is required to handle such materials at the sewage treatment plant;
- (i) Noxious or malodorous gas or substance capable of creating a public nuisance.
- (Code 2007)
- 15-326. BILLS. (a) Bills shall be rendered monthly as provided in section 15-222 and shall be collected as a combined utility bill.
- (b) Any person at the time of beginning or terminating service who receives service for a period of less than 17 consecutive days shall be billed at no less than

one-half of the regular minimum monthly rate. For service of 17 consecutive days or more the charge shall be not less than full regular minimum monthly rate.  
(Code 2007)

15-327. DELINQUENT ACCOUNTS; LIEN AGAINST PROPERTY. In the event any person, except the United States and the state of Kansas or any political subdivision thereof, shall fail to pay the user charges when due, water service shall be terminated as provided in sections 15-102:104. (Code 2007)

15-328. SEWER SERVICE CHARGE. The monthly charge for sewer service shall be as follows:

15-329. SAME; ANNUAL REVIEW. The city shall annually review user charges and revise them, if necessary, to reflect, as a minimum, the following conditions:

(a) User charges will maintain a proportional distribution of operation, maintenance and replacement (OM&R) costs among all users and/or user classes;

(b) User charges shall generate adequate revenues to pay the costs of OM&R;

(c) All end of the year balances collected through user charges to pay for OM&R must be carried over to the next year and user charges adjusted accordingly.  
(Code 1977, 13.12.150 F)

15-330. PENALTIES AND VIOLATIONS. (a) Any person found to be violating any provision of this chapter shall be served by the city with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

(b) Any person who continues any violation beyond the time limit provided for in subsection (a) is guilty of an ordinance violation, and upon conviction thereof, is subject to the penalty provision of section 1-117. Each day in which any such violation continues shall be deemed a separate offense.

(Code 1977, 13.12.160)

## ARTICLE 4. SOLID WASTE

15-401. DEFINITIONS. Unless the context clearly indicates otherwise, the meaning of words and terms as used in this article shall be as follows:

(a) Commercial Waste. - All refuse emanating from establishments engaged in business including, but not limited to stores, markets, office buildings, restaurants, shopping centers, theaters, hospitals, governments and nursing homes.

(b) Dwelling Unit. - Any enclosure, building or portion thereof occupied by one or more persons for and as living quarters;

(c) Garbage. - Waste resulting from the handling, processing, storage, packaging, preparation, sale, cooking and serving of meat, produce and other foods and shall include unclean containers;

(d) Multi-Family Unit. - Any structure containing more than four individual dwelling units;

(e) Refuse. - All garbage and/or rubbish or trash;

(f) Residential. - Any structure containing four or less individual dwelling units, rooming houses having no more than four persons in addition to the family of the owner or operator, and mobile homes;

(g) Rubbish or Trash. - All nonputrescible materials such as paper, tin cans, bottles, glass, crockery, rags, ashes, lawn and tree trimmings, stumps, boxes, wood, street sweepings and mineral refuse. Rubbish or trash shall not include earth and waste from building operations or wastes from industrial processes or manufacturing operations;

(h) Single Dwelling Unit. - An enclosure, building or portion thereof occupied by one family as living quarters.

(i) Solid Waste. - All non-liquid garbage, rubbish or trash.

(Code 2007)

15-402. CONTRACTS. The city shall have the right to enter into a contract with any responsible person for collection and disposal of solid waste. (Code 2007)

15-403. DUTY OF OWNER, OCCUPANT. The owner or occupant of every dwelling unit or commercial enterprise shall provide at his or her own expense a suitable container for the storage of solid waste as provided in this article. No owner or occupant shall permit to accumulate quantities of refuse or other waste materials within or close to any structure within the city unless the same is stored in approved containers and in such a manner as not to create a health or fire hazard.

(Code 2007)

15-404. CONTAINERS. (a) Residential containers shall have a capacity of not more than 90 gallons. They shall be of galvanized metal or other non-rusting material of substantial construction. Each container shall have a tight fitting lid and shall be leak-proof and fly-tight. All containers shall have handles of suitable construction to permit lifting. Plastic bags manufactured for garbage and refuse disposal may be substituted for residential containers. Plastic bags, when used, shall be securely closed. All garbage shall be drained of all liquids before being placed in bags or containers.

(b) The city reserves the right to designate the location and length of time refuse and compost containers can be placed in the front yard of any premises. On the day designated for trash collection, the containers shall be placed as close as practical to the location designation of the collection site. Within 24 hours after any container has been emptied, the person or persons responsible for such container shall return the container to the location which shall be concealed from the street in front of each residence or business establishment. If no one is designated as responsible for the removal of the container, then the owner of such property or the tenant of rental property shall be responsible to see that the container is removed from the street in front of each residence or business establishment.  
(Code 1977, §8.24.065; Code 2007)

15-405. BULK CONTAINERS. On premises where excessive amounts of refuse accumulates or where cans or bags are impractical bulk containers for the storage of refuse may be used. Containers shall have a capacity and shall be equipped with appurtenances for attaching mechanical lifting devices which are compatible with the collection equipment being used. Containers shall be constructed of durable rust and corrosion resistant material which is easy to clean. All containers shall be equipped with tight fitting lids or doors to prevent entrance of insects or rodents. Doors and lids shall be constructed and maintained so they can be easily opened. Containers shall be watertight, leakproof and weather proof construction.  
(Code 2007)

15-406. WRAPPING GARBAGE. All garbage shall be drained of all excess liquid, and wrapped in paper or other disposable container before being placed in solid waste containers. (Code 2007)

15-407. HEAVY, BULKY WASTE. Heavy accumulations such as brush, tree limbs, broken concrete, sand or gravel, automobile frames, dead trees, and other bulky, heavy materials shall be disposed of at the expense of the owner or person controlling same. (Code 2007)

15-408. HAZARDOUS MATERIALS. No person shall deposit in a solid waste container or otherwise offer for collection any hazardous garbage, refuse, or waste. Hazardous material shall include:

- (a) Explosive materials;
- (b) Rags or other waste soaked in volatile and flammable materials;
- (c) Chemicals;
- (d) Poisons;
- (e) Radio-active materials;
- (f) Highly combustible materials;
- (g) Soiled dressings, clothing, bedding and/or other wastes, contaminated by infection or contagious disease;
- (h) Any other materials which may present a special hazard to collection or disposal personnel, equipment, or to the public.

(Code 2007)

- 15-409. PROHIBITED PRACTICES. It shall be unlawful for any person to:
- (a) Deposit solid waste in any container other than that owned or leased by him or under his control without written consent of the owner and/or with the intent of avoiding payment of the refuse service charge;
  - (b) Interfere in any manner with employees of the city or its contractors in the collection of solid waste;
  - (c) Burn solid waste except in an approved incinerator and unless a variance has been granted and a written permit obtained from the city or the appropriate air pollution control agency;
  - (d) Bury refuse at any place within the city except that lawn and garden trimmings may be composted.
- (Code 2007)
- 15-410. OBJECTIONABLE WASTE. Manure from cow lots, stables, poultry yards, pigeon lofts and other animal or fowl pens, and waste oils from garages or filling stations shall be removed and disposed of at the expense of the person controlling the same and in a manner consistent with this article. (Code 2007)
- 15-411. UNAUTHORIZED DISPOSAL. No person shall haul or cause to be hauled any garbage, refuse or other waste material of any kind to any place, site or area within or without the limits of the city unless such site is a sanitary landfill, transfer point or disposal facility approved by the Kansas State Department of Health and Environment. (Code 2007)
- 15-412. PRIVATE COLLECTORS; LICENSE REQUIRED. (a) It shall be unlawful for any person, except an employee of the city specifically authorized for that purpose, to collect or transport any solid waste within the city, without securing a license from the city.
- (b) Nothing herein shall be construed to prevent a person from hauling or disposing of his or her own solid waste providing it is done in such a manner as not to endanger the public health or safety or not to become an annoyance to the inhabitants of the city, and not to litter the streets and alleys of the city.
  - (c) License; Transferability; Change of Registration.
    - (1) No license issued under this chapter shall be assigned or transferred by the person, firm or corporation holding the same as licensee.
    - (2) Any such licensee may, however, change the registration of the vehicle to be operated under the license upon the following conditions:  
The registration of the vehicle heretofore operated under the license is removed from the list of vehicles on the license.
    - (3) The vehicles sought to be newly registered are first inspected and approved by the police department in the manner provided in section 15-413(a).
- (Code 1977, 5.28.060; Code 2007)
- 15-413. SAME; APPLICATION. (a) Any person desiring to collect or transport solid waste within the city shall make application for a license to the city clerk. The application shall set forth the name and address of the applicant, the make and type of vehicle to be operated for collecting and transporting solid waste. The application shall be accompanied by a certificate of inspection and approval of said vehicle by

the county health officer issued not more than 15 days prior to the date of application.

(b) The applicant furnishes a certificate of vehicle insurance covering minimum limits of bodily injury liability of \$50,000 per person and \$100,000 per occurrence, together with property damage liability of \$10,000 for each accident. The applicant must present at the time of making application or renewal application the paid premium receipt for one year's coverage on the above certificate of insurance for each vehicle.

(Code 1977, 5.28.020 B; Code 2007)

15-414.           CLOSED VEHICLE. Any vehicle used by any person for the collection and transportation of solid waste shall be maintained in a good mechanical condition. Vehicle shall be equipped with an enclosed covered body to prevent the contents leaking or escaping therefrom. Only tree trimmings or brush may be transported in open-bodied vehicles provided the material is securely tied in place to prevent scattering along the streets and alleys. (Code 2007)

15-415.           RULES AND REGULATIONS. The collection and transportation of trash and waste materials shall be at all times under the general supervision of the mayor or his or her duly authorized agent, who shall have the authority by and with the consent of the governing body to make additional rules and regulations not inconsistent with the terms and provisions of this article requiring that the collection and transportation of trash and waste materials shall be conducted in such manner as not to endanger the public health, or to become an annoyance to the inhabitants of the city, and providing for a proper fee to be charged to the customer. (Code 2007)

## ARTICLE 5. WATER CONSERVATION

- 15-501. PURPOSE. The purpose of this article is to provide for the declaration of a water supply emergency and the implementation of voluntary and mandatory water conservation measures throughout the city in the event such an emergency is declared. (Code 2007)
- 15-502. DEFINITIONS. (a) Water - shall mean water available to the city for treatment by virtue of its water rights or any treated water introduced by the city into its water distribution system, including water offered for sale at any coin-operated site.
- (b) Customer - shall mean the customer of record using water for any purpose from the city's water distribution system and for which either a regular charge is made or, in the case of coin sales, a cash charge is made at the site of delivery.
- (c) Waste of Water - includes, but is not limited to (1) permitting water to escape down a gutter, ditch, or other surface drain, or (2) failure to repair a controllable leak of water due to defective plumbing.
- (d) The following classes of uses of water are established:
- Class 1: Water used for outdoor watering, either public or private, for gardens, lawns, trees, shrubs, plants, parks, golf courses, playing fields, swimming pools or other recreational area; or the washing of motor vehicles, boats, trailers, or the exterior of any building or structure.
- Class 2: Water used for any commercial or industrial, including agricultural, purposes; except water actually necessary to maintain the health and personal hygiene of bona fide employees while such employees are engaged in the performance of their duties at their place of employment.
- Class 3: Domestic usage, other than that which would be included in either classes 1 or 2.
- Class 4: Water necessary only to sustain human life and the lives of domestic pets and maintain standards of hygiene and sanitation.  
(Code 2007)
- 15-503. DECLARATION; WATER WATCH. Whenever the governing body of the city finds that conditions indicate that the probability of a drought or some other condition causing a major water supply shortage is rising, it shall be empowered to declare, by resolution, that a water watch exists and that it shall take steps to inform the public and ask for voluntary reductions in water use. Such a watch shall be deemed to continue until it is declared by resolution of the governing body to have ended. The resolutions declaring the existence and end of a water watch shall be effective upon their publication in the official city newspaper.  
(Code 1977, 13.06.040)
- 15-504. SAME; WATER WARNING. Whenever the governing body of the city finds that drought conditions or some other condition causing a major water supply shortage are present and supplies are starting to decline, it is empowered to declare by resolution that a water warning exists and that it will recommend restrictions on nonessential uses during the period of the warning. Such a warning shall be deemed to continue until it is declared by resolution of the governing body to have

ended. The resolutions declaring the existence and end of a water warning shall be effective upon their publication in the official city newspaper.  
(Code 1977, 13.06.050)

15-505. SAME; WATER EMERGENCY. Whenever the governing body of the city finds that an emergency exists by reason of a shortage of water supply needed for essential uses, it shall be empowered to declare by resolution that a water supply emergency exists and that it will encourage voluntary water conservation or impose mandatory restrictions on water use during the period of the emergency. Such an emergency shall be deemed to continue until it is declared by resolution of the governing body to have ended. The resolutions declaring the existence and end of a water supply emergency shall be effective upon their publication in the official city newspaper. (Code 2007)

15-506. VOLUNTARY CONSERVATION MEASURES. Upon the declaration of a water supply emergency as provided in section 15-503, the mayor is authorized to call on all water consumers to employ voluntary water conservation measures to limit or eliminate non-essential water uses including, but not limited to, limitations on the following uses:

- (a) Sprinkling of water on lawns, shrubs or trees (including golf courses).
- (b) Washing of automobiles.
- (c) Use of water in swimming pools, fountains and evaporative air conditioning systems.
- (d) Waste of water.

(Code 2007)

15-507. MANDATORY CONSERVATION MEASURES. Upon the declaration of a water supply emergency as provided in section 15-505, the mayor is also authorized to implement certain mandatory water conservation measures, including, but not limited to, the following:

- (a) Suspension of new connections to the city's water distribution system, except connections of fire hydrants and those made pursuant to agreements entered into by the city prior to the effective date of the declaration of the emergency;
- (b) Restrictions on the uses of water in one or more classes of water use, wholly or in part;
- (c) Restrictions on the sales of water at coin-operated facilities or sites;
- (d) The imposition of water rationing based on any reasonable formula including, but not limited to, the percentage of normal use and per capita or per consumer restrictions;
- (e) Complete or partial bans on the waste of water; and
- (f) Any combination of the foregoing measures.

(Code 2007)

15-508. EMERGENCY WATER RATES. Upon the declaration of a water supply emergency as provided in section 15-505, the governing body of the city shall have the power to adopt emergency water rates by ordinance designed to conserve water supplies. Such emergency rates may provide for, but are not limited to:

- (a) Higher charges for increasing usage per unit of the use (increasing block rates);
  - (b) Uniform charges for water usage per unit of use (uniform unit rate); or
  - (c) Extra charges in excess of a specified level of water use (excess demand surcharge).
- (Code 2007)

15-509. REGULATIONS. During the effective period of any water supply emergency as provided for in section 15-505, the mayor is empowered to promulgate such regulations as may be necessary to carry out the provisions of this article, any water supply emergency resolution, or emergency water rate ordinance. Such regulations shall be subject to the approval of the governing body at its next regular or special meeting. (Code 2007)

15-510. VIOLATIONS, DISCONNECTIONS AND PENALTIES. (a) If the mayor, water superintendent, or other city official or officials charged with implementation and enforcement of this article or a water supply emergency resolution or ordinance learn of any violation of any water use restrictions imposed pursuant to sections 15-507 or 15-509, a written notice of the violation shall be affixed to the property where the violation occurred and the customer of record and any other person known to the city who is responsible for the violation or its correction shall be provided with either actual or mailed notice. The notice shall describe the violation and order that it be corrected, cured or abated immediately or within such specified time as the city determines is reasonable under the circumstances. If the order is not complied with, the city may terminate water service to the customer subject to the following procedures:

(1) The city shall give the customer notice by mail or actual notice that water service will be discontinued within a specified time due to the violation and that the customer will have the opportunity to appeal the termination by requesting a hearing scheduled before the city governing body or a city official designated as a hearing officer by the governing body.

(2) If such a hearing is requested by the customer charged with the violation, he or she shall be given a full opportunity to be heard before termination is ordered; and

(3) The governing body or hearing official shall make findings of fact and order whether service should continue or be terminated.

(b) A fee of \$50.00 shall be paid for the reconnection of any water service terminated pursuant to subsection (a). In the event of subsequent violations, the reconnection fee shall be \$200.00 for the second violation and \$300.00 for any additional violations.

(c) Violation of this article shall be a municipal offense and may be prosecuted in municipal court. Any person so charged and found guilty in municipal court of violating the provisions of this article shall be guilty of a municipal offense. Each day's violation shall constitute a separate offense. The penalty for an initial violation shall be a mandatory fine of \$100.00. In addition, such customer may be required by the court to serve a definite term of confinement in the city or county jail which shall be fixed by the court and which shall not exceed 30 days. The penalty for a second or subsequent conviction shall be a mandatory fine of \$200.00. In

addition, such customer shall serve a definite term of confinement in the city or county jail which shall be fixed by the court and which shall not exceed 30 days.  
(Code 2007)

15-511.           EMERGENCY TERMINATION. Nothing in this article shall limit the ability of any properly authorized city official from terminating the supply of water to any or all service connections as required to protect the health and safety of the public.  
(Code 2007)
